

MEASLES

KNOW THE SYMPTOMS

High fever

Runny nose

Cough

Red, watery eyes

Tiny white spots inside the mouth (Koplik spots)

A characteristic rash (flat, red spots) begins on the face (near the hairline) and upper neck, spreads to the trunk, arms and legs.

MEASLES IS A HIGHLY CONTAGIOUS VIRAL DISEASE, WHICH CAN BE SEVERE OR EVEN FATAL. IT IS PREVENTABLE.

If you have not had the disease or not been vaccinated in the past consider being vaccinated now. Talk to your doctor.
