

Simulation Exercise

Health & Security Critical Incidents

Test your incident management capabilities in an off-the-shelf scenario and sharpen your ability to act in a Crisis which challenges your Duty of Care obligations. In a quality learning environment, empower and encourage coordination between Emergency and Crisis Management Staff, as well as with your on the ground support team.

WHEN HAVE YOU LAST TESTED YOUR INCIDENT RESPONSE CAPABILITIES?

Maximising your level of preparedness is a crucial success factor for effective crisis management. It ensures business continuity and ultimately can save lives. Moreover, it reassures all stakeholders that your organisation is well prepared. However, it can also expose gaps in your crisis plans, indicating where processes need to be optimised or response plans adapted.

WHAT IS INCLUDED?

- ½ day interactive workshop
- Choice of off-the-shelf scenarios
- Run by Medical & Security experts
- With/without TravelTracker
- Up to 15 participants
- Feedback session

WHO SHOULD ATTEND?

Anyone involved in the daily management of health and security incidents such as :

- Security Leadership
- Business Continuity
- Risk Management
- Human Resources
- Travel Management
- Occupational Health & Safety

WHAT ARE YOUR BENEFITS?

- Maximise your level of preparedness
- Expose gaps, optimise your processes and response plans
- Ensure business continuity
- Reassure all stakeholders
- Optimise the use of your International SOS Travel Risk Management Programme
