

WHY DO YACHTS NEED A MEDICAL MONITORING SOLUTION?

The inclusion of advanced medical monitoring tools, as part of a yacht's onboard inventory, enables accurate vital signs readings to be sent directly to a medical professional, skilled in interpreting the results. Having the right information in front of the right people, allows for fast, accurate diagnosis.

MedAire recommend that every yacht carry quality diagnostic equipment and, as with any medical equipment purchase, it is best to set up a call with our team to find a solution that fits your vessel's specific needs. As a starter, the table below provides an easy comparison of the core models we have an offer: **Corpuls3, Tempus Pro** and **MedAire's DAK**.

HOW DO THESE MODELS COMPARE?

	Connects with MedLink?	Method of communication	Integrated defibrillator?	Suitable for a non medical professional?	BP, SpO2/Pulse, temperature	etCO2	12 Lead ECG	High contrast screen	Water resistant	Vital signs trending	Documentation & event tracking	Connectivity
 <p>TEMPUS PRO</p>	Yes	Video & Voice to Medlink	When combined with LS	Medical professionals only	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Wifi & Cellular (optional)
 <p>CORPULS3</p>	Yes	One way text message system to MedLink	Yes	Some training required	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Wifi & Cellular (optional)
