

HURRICANE SITE MONITOR + SECURITY CONSULTING

INTERNATIONAL
SOS

In anticipation of the forecasted active 2020 Hurricane Season, International SOS recommends organizations have a Hurricane response plan in place to protect their workforce.

SITE MONITOR:

- › **Ongoing Incident Monitoring** - EHSC provides access to detailed operational information on the status of this and other threats. Users can turn on automated email alerts so they are kept up-to-date on threats specific to their work locations.
- › **Manager to-do lists (playbooks) for multiple scenarios for Hurricane threat** - It includes pre-scripted and customizable communications, posters, procedures, presentations, planning tools and other resources.
- › **Medical content kept up-to-date as situations change** - In an evolving outbreak, information will continue to come out that requires plan modification. The EHSC informational team maintain the content, so your team can focus on business operations.
- › **30 Minute Briefing Session** - Access to an International SOS subject matter expert to address your most important questions and concerns.

AND/
OR

SECURITY CONSULTING:

- › **Ongoing Incident Monitoring** - EHSC provides access to detailed operational information on the status of this and other threats. Users can turn on automated email alerts so they are kept up-to-date on threats specific to their work locations.
- › **Site Monitor Plan Activation** - help EHSC clients by advising on activation of plans related to EHSC for the Hurricane crisis.
- › **Response Plan Advice** - review EHSC's client response plans for Hurricanes and advise on areas that require updates and issue supporting guidelines to fill any gaps to help implement plans.
- › **Remote Briefing Sessions** - run remote briefing sessions whereby a Security Advisor can speak to internal departments (e.g. HR, risk management, HSE), and other stakeholders to assist with COVID-19.

For more information on a Site Monitor Hurricane Plan Annual Subscription please contact your Account Manager.
